

REACH Compliance Statement

Valued Customer,

SemiGen is committed to compliance with the EU REACH Regulation, (EC/1907/2006), regarding the (Registration, Evaluation, Authorization and Restriction of Chemical substances) used in the manufacturing of SemiGen products and services.

Under Article 33, suppliers of articles have the responsibility to communicate to the recipients of their products, any substances of very high concern (SVHCs) contained in their products, above the stipulated threshold of 0.1% w/w.

Obligations related to Article 7(2) on notification of substances in articles and Article 59(4) on authorization of SVHCs are not applicable to SemiGen products.

As defined in Article 76, Annex XVII of the REACH Regulation includes all the restrictions adopted in the framework of REACH and the previous legislation, Directive 76/769/EEC. As defined in Article 57, Annex XIV contains substances requiring authorization to be used after the sunset date.

As ECHA continues to update the Candidate List of Substances of Very High Concern, Annex XIV and Annex XVII, SemiGen continues to collect information on the use of these substances from its supply base. Requests to vendors and third-party partners to provide full material data about the elements of the parts they supply are continually managed and applied to support constant compliance.

The information provided to support compliance relies upon information provided by third-party suppliers in response to our reasonable inquiries. As such this information is subject to change as new information becomes available to us and we make no representation or warranty, express or implied as to, and assume no liability for the accuracy of, information supplied by third parties.

Regards,
Rebecca Crump
Compliance and Quality Systems Manager
